Pete Beal is all set for hunting season. He was the lucky winner in the recent Optimist Club drawing for a shot gun. Club Optimists have been working to raise funds for the over all general youth program in Hondo, according to their president, Charlie Pimm, and another give-away stunt is in the offing. Whatever you contribute to the fund is diverted to their youth program fund.

After a brief respite from playing ball, Little League is on the diamond again. The following teams are scheduled to play at 5 p.m. next week on their field at the air base:

Monday, Blue Darters vs Yellow Giants.

Tuesday, Red Wings vs White Yankees.

Wednesday, Green Hornets vs Maroon Aggies.

The Business and Professional Women's Club in Hondo is still holding a bridge tournament each Wednesday evening in the B&PW Hall over The Mill. Playing starts at 8 p.m. Everybody invited, says Mrs. R. V. Stanga, president.

Medina Electric Co-op will meet Saturday, July 13 in their new headquarters in Hondo to elect three directors. Registration begins at 12 a.m., and the business meeting will start at 2 p.m.

The Summer Recreation Program under the direction of Tom Moseley is holding a badminton tournament for Juniors and Intermediates on Thursday morning. The Midgets will do battle over the Chinese checker boards on Friday. Moseley said everyone is invited to attend and would like to see more youngsters turn out for the program.

Dick Proctor, who left for the Scout Jamboree at Valley Forge last Friday, won't be too lone some. Just learned that Linden Penland son of Mr. and Mrs. B. L. Penland of Natalia is attending the Jamboree and the two boys have been assigned to the same patrol. Linden is an Eagle Scout.

Miss Pettit Wins STSC Scholarship

Anita Louise Pettit of Hondo, granddaughter of the A. D. Tomerlins, is among 35 beginning freshmen who have been awarded scholarship awards for the coming year at Southwest Texas State Teachers College.

Money for the scholarship awards comes from friends of the college and from civic and business organizations, most of them in San Marcos.

Awards were given to students on the basis of their academic records in high school plus recommendations received from teachers and friends as to the ability of the students honored.

Vance Reports \$10,628

May Bond Sales

Frank X. Vance, Chairman of the Medina County Savings Bonds Committee, reports that Savings Bonds sales in this county were \$10,628 during the month of May. Sales during the first five months of 1957 were \$55,984 or 25.2 per cent of our year's goal.

Sales in Texas were \$13,840,433 during May which was an increase of \$260,000 over the month of April. The State of Texas has now reached 37.6 per cent of its 1957 goal.

"I feel that if every citizen of Medina County will buy an extra bond during the remainder of 1957 our county will reach its goal. There is no safer investment than U. S. Savings Bonds since both the principal and interest are fully guaranteed by our government. Savings Bonds now earn 3 1/2 per cent interest compounded semi-annually when held to maturity, and they now mature in eight years and eleven months," Chairman Vance concluded.

Masonic Lodge Installs New Officers

Jack R. Garrison was installed as Worshipful Master of the Hondo Masonic Lodge, 756, on July 2.

Other officers installed were C. T. Woods, Jr., Senior Warden; O. L. Moss, Secretary; Fletcher Davis, Chaplain; Vernon C. Muennink, Junior Deacon; Geo. O. Floyd, Jr., Steward; and Theo. Cagle, Tiler.

Car Runs Into Bedroom

A 22 year old Hondo resident crashed into a house Sunday night at 11, after missing a turn from 18th Street to Avenue U. The car pushed through the wall of a room occupied at the time by two small boys.

Charged with driving without a license was Isabal Rios Rodriguez, of 1602 16th St. According to the sheriff's department, Rodriguez was traveling west on 18th Street and attempted to turn on Avenue U. He was apparently unable to stop at the intersection and marks showed that he skidded 122 feet before hitting the Martinez home. Damage to the house was estimated at \$500; to the car, \$150.

Uninjured by the car that poked into their room were Lupe and Manuel Martinez.

Firemen Answer Early Call

Firemen answered an alarm at 3:30 Wednesday morning when the fire siren's raucous call sent them scurrying out of peaceful slumbers to the Hondo Locker plant.

Jerry Blinka, nightwatchman, turned in the alarm when he noticed that one of the electric motors in the rear of the Locker plant had overheated and caught on fire.

In almost less time than it takes to tell, the firemen had extinguished the blaze.

No damage was done to the property except to the motor.

G. I. QUEEN, Miss Mary Alice Trevino, was elected to that honor at a meeting of District 16 of the G. I. Forum recently. She is the daughter of Mr. and Mrs. E. E. Trevino. She will reign at the G. I. Forum Auxiliary Dance to be held in August in Hondo.

Black Creek Church Has Annual Meet

The Annual Meeting of the Primitive Baptists will begin in Zion Church, Black Creek, 5 miles west of Devine, on Thursday night, July 11 and continue through the second of Sunday.

Elder J. B. Scarbrough, of Wichita Falls, Tex., will be guest preacher. Scarbrough has preached for the Presbyterians for 25 years before casting his lot with the Primitive Baptists. He has held pastorates in Texas and other states. At present, he is the pastor of the Fort Worth Primitive Baptist Church. He is a Bible scholar and a profound speaker.

Preaching services will begin at 8 p.m. and 11 a.m. daily. Devotional services will be conducted before each preaching hour. Communion Service will be observed on Sunday.

Basket lunch will be served at the noon hour on Sunday. The general public is cordially invited to come — and bring lunch.

W. BARBER COMMANDS MCCOY POST

Wayne Barber was elected Post Commander of Bradshaw, Herling, McCoy, Post 371, American Legion, at a recent meeting of the club in Natalia.

Serving with him for the fiscal year 1957-58 will be B. C. McDonald and W. N. Forbes Jr., as vice-commanders; Aresto Loza, chaplain; E. Whittington, chaplain; Willie Winters, sgt. at arms; Hal Savage, historian; Edward Saldana, finance officer; W. N. Frank Fluegge, custodian; C. M. Maney, sgt. of colors; C. C. Almeny, sgt. of colors; color bearers; and I. Culcar, color bearers. Installation ceremonies will be held August 5, 8 p.m. at the Leheld August Post Home, according to Commander-elect Barber.

RIDING ON A CLOUD is what Misses Shirley Braden and Mary Heiligman are doing these days. Recent graduates of an airline personnel school in Kansas City, Missouri, the two were assigned

as hostess to Trans World Airlines. Shown receiving their hostess wings from C. C. McCabe director of placement at the school, the two girls will be flying the skyways from their base

in Kansas City. L to R: Mary A. Heiligman, daughter of Mr. and Mrs. Anton Heiligman of Dunlay and Shirley L. Braden, daughter of Mr. and Mrs. Bill Braden of Hondo.

WRINGER ACCIDENT PAINFUL

Mrs. J. N. Stanfield came off second best in a recent bout with an electric clothes wringer, when she accidentally let her hand get caught while doing the family wash last week.

Her hand was pretty badly mangled according to all reports, and will probably require some two or three weeks time for healing. She was taken to a local hospital where several stitches were required to repair the damage.

Her husband was on the opposite side of the machine, catching the clothes as they came through the wringer, and he shut off the power, which probably saved the day for Mrs. Stanfield.

DEAD MAN JUST PLAIN TIRED

Sheriff's department deputies were called out Monday evening to pick up a "dead" man lying on the shoulder of Hwy. 90 in front of Carter's Drive In.

The man, Eddie Louis Vann, 23, Houston, proved to be very much alive. He told the officers that he was just tired out from hitchhiking.

The obliging deputies promptly provided him a bed — at county expense. The charge: vagrancy.

Ham Stations Affected By Sun Spots

Practically everything from weather to fallen arches is blamed on those capricious sun spots since their existence has become common knowledge.

The Dallas Morning News reported recently that numerous radio ham operators had been kept from sending and receiving and called it a "kind of blackout" due to explosions on the sun.

Charles Larkin, one of Hondo's ham operators, said that July 5 was the day the sun spots were supposed to be worst and that while sending and receiving has not been as clear as at other times, he has been able to stay on the air, keeping in almost daily contact with the J. T. Pennington who are vacationing in Idaho and other states in that area.

"Pennington has a transceiver in his car," explained Larkin, "and today (Monday) I talked to him while he was driving in the outskirts of Flagstaff, Arizona. Can't say that sun spots have bothered us too much in this area."

ACCIDENT RATE LOW OVER FOURTH

In Medina County, the accident rate for the long July Fourth weekend was low, with only one injury reported due to traffic accidents, according to Patrolman Kay Phillips who investigated both accidents occurring during the Thursday to Sunday holidays.

A hit and run driver left Jose Espinosa Alvarez with a broken arm but not much damage to his 1950 Ford when he was struck on the Seco Bridge at D'Hanis Sunday. Alvarez was driving east when the accident occurred. He was taken to Medina Hospital. The driver of the hit and run vehicle has not been apprehended, according to Phillips.

A collision involving two vehicles with slight damage to each occurred about 2 miles south of 30th Street at an intersection when Nicholas De Leon attempted to make a left hand turn in his 1955 Chevrolet and collided with a 1950 Ford driven by Toby Earl Sauter. No injuries were reported and De Leon was charged with making an improper left turn.

J. MARVIN HUNTER NEWSPAPERMAN, DIES

By Fletcher Davis

In the passing away of J. Marvin Hunter, whose death occurred at a Kerrville hospital on Saturday afternoon, June 29, 1957, the state lost one of the most colorful newspaper men who ever graced the profession in his native state and one of the best if not the best of its historians.

Born early enough to personally contact, in the impressionable age of boyhood, many of the old timers, he became deeply interested in the annals of the pioneering days in which they had participated; and to preserve a record thereof became a passion.

Inducted into the printing business at the tender age of only ten years, he thus found exceptional opportunities to gather first hand and preserve in permanent form accurate and reliable data on these events — events that have no parallel in all the other regional history of our whole country.

Not content to leave only a written record of the events that made the era so exceptionally noteworthy, he established at his late home in Bandera a Frontier Times Museum where he assembled a collection of relics of those frontier days that is a marvel to all who see it and which will still be a monument to the man and the work he did long after we, who were his contemporaries while he was doing it, are forgotten by those who come after us.

As a lover of the people from whom he sprang and their progeny among whom and for whom he labored for the 67 years of his active life as a printer, he had no equal.

Farmers Can Get Gas Tax Refund

R. L. Phinney, District Director, Internal Revenue Service, announced today that farmers may obtain a refund of the Federal excise tax on gasoline which is used for farming purposes during the fiscal year ending June 30, 1957, by filing a claim at any time after June 30 and before October 1, 1957.

Claims for the present Federal tax rate of 3 cents a gallon are to be made on Form 2240 which may be obtained together with instructions from the Internal Revenue office at San Antonio Texas or the nearest county agricultural agent's office. Also available at these locations is a booklet, Publication Number 308, Farmer's Gasoline Tax Refund Guide, which explains the farmer's gas tax refund program.

Mr. Phinney cautions, "farmers expecting to file claims should keep ample records to enable Internal Revenue to verify accuracy of the amount claimed."

warded by a reciprocal love on the part of those he had served so long and so well was amply attested by the vast assemblage of sorrowing friends at the Monday morning funeral services.

In that sad sweet knowledge let those most deeply grieved take comfort.

Money Orders Stolen From Duncan Office

Two signed money orders and a signed check were stolen from the Jim Duncan Insurance Agency Saturday afternoon.

The unknown robber or robbers apparently entered the office while Duncan was out for a few minutes and took the checks from an envelope on his desk.

Duncan said that payment for the money orders has been stopped through the post office and the check through the bank, making them worthless. However, he added that the daylight bandit might attempt to cash them, leaving an unsuspecting merchant with some worthless paper. The orders, and their denominations are 11-48,647,174 for \$5; 11-48,647,173 for \$31.50; and signed check for \$24.50.

Broomcorn Crop Short of Pullers

Grain Tour Friday

A tour to visit several hybrid grain sorghum demonstration plots will be held on Friday according to C. B. Gaston, County Agent.

The group will leave from the south side of the courthouse at 2 p.m. and will visit three farms. Preliminary production figures will be available for all varieties. There are ten different varieties planted in the three plots. Gaston explains that in selecting the variety best adapted for this section, strength of stalk, height, exertion of head, and the total pounds of grain produced per acre are of prime importance. The group will compare the hybrids with the martin variety that is growing alongside the new sorghums.

FARMERS MAILED \$79,347.98

Checks totaling \$79,347.98 have been mailed to approximately 150 farmers in Medina County since the first of the year, according to Floyd Smith, Medina County ASC office manager.

Most of the money, \$32,550.42 was paid on conservation reserve practice payments while \$27,292.80 was paid out in conservation reserve annual payments.

Acreage reserve payments paid to cotton and wheat farmers participating in the soil bank program to remove cotton and wheat from production amounted to \$17,524.76.

Smith said only those who have met the terms of the contract are being paid.

LACOSTE GETS NEW CAFE

By Mrs. R. R. Koch

A much needed cafe will open in LaCoste in the near future situated between the LaCoste National Bank and the Electronic Equipment Shop.

M. C. Parish, owner of the Electronic Equipment Shop, is starting work on his new venture and says that it will be ready for the public in the very near future.

D'Hanis Lions Launch Year's Work

By Mrs. Amos Finger

The D'Hanis Lions Club launched their work for the coming year at the regular meeting Monday evening. In charge were new officers, who had been installed June 24 by Teairl Lewis, deputy district governor, as follows: president, Don Scott; secretary-treasurer, Raymond Nester; lion tamer, Tom Finger; tail twister, John Poerner; 1st vice president, Howard Rothe; 2nd vice president, J. W. Rothe; 3rd vice president, David Zinsmeyer. Directors are A. J. Finger, Joe Mueller, Martin Ney, and B. J. Stewart.

Some of the activities reviewed by Charles Langfeld, past president, were installing of warning lights at the railroad crossing, chest X-rays, fogging against insects, improvement of railroad park, and the 400 package Christmas donation for D'Hanis children. Street lights for business streets will soon be in place.

Star Scout Proctor Attending Jamboree

Hondo Boy Scout Dick Proctor, son of Mrs. Bonita Proctor, is off on a "once in a lifetime" experience at the Fourth National Jamboree to be held July 12 to 18 at historic Valley Forge, Pa.

Dick left from San Antonio Friday morning with a train load of area Scouts. They will be gone for eleven days and enroute to and from the Jamboree the boys will visit St. Louis, New York City, Washington, D. C., Niagara Falls and Chicago.

They were due to move into Valley Forge at 5 a.m. on July 9 on a 2,035 acre site loaned by the Commonwealth of Pennsylvania, and immediately set up camp along with 50,000 other Scouts and leaders from all over this country and from at least 16 foreign countries.

Valley Forge, made famous by George Washington's Revolutionary War Army, will see the housing of the boys by means of some 25,000 tents of varying sizes — a camp-wide ceremony which is all of the standard army green. The food bill will be paid by

the Scouts who contribute \$50 each. If there is any money left, there will be a refund.

The first National Boy Scout Jamboree was held in Washington in 1937 and were originally scheduled for every four years. World War II delayed the second, and it did not convene until 1950, also at Valley Forge.

The third jamboree was held at Santa Ana, Cal., in 1953. Two Hondo Scouts, Albert Vance and Rayburn Corder, attended that one.

Mrs. Proctor sent in Dick's reservation in January without his knowing it and he commented that "she made up my mind for me," but he was all enthusiasm when leaving time came last week.

A Star Scout and a member of Order of the Arrow, Dick will participate in sports, crafts, Indian lore, cooking meals and in a camp-wide ceremony which is due to be telecast.

2500 Tons Estimated

Despite the fact that hundreds of acres of broomcorn will be lost in Medina County due to a shortage of pullers, the time element and hot, dry weather, Vernon King, veteran broomcorn buyer, said he would estimate roughly 2500 tons would be shipped out of the County this season if it all gets harvested.

Growers have been plagued with the shortage of hands for pulling this year's crop, combined with the hourly wage scale being asked by laborers to harvest broomcorn.

Actually, pullers in this area contract to pull by the row by acre length. If a row is ten acres long and they are asking 35c, the puller would get \$3.50 for each row in that particular patch. Prices range from 20c to 35c per row-acre. According to King, this would make the hourly wage anywhere from \$1.10 to \$2 per hour.

"A good puller can average \$8 to \$10 per day," commented King.

Some growers discouraged over high wages and the prices they hope to get for their crop, have decided to plow it under or let cattle graze on it.

Marvin Haass of Route 1, Devine, planted 350 acres of broomcorn this year and says he will get about 10 per cent of his crop. The rest will be plowed under.

Like all broomcorn growers, Haass has had his share of problems. He made application to the Texas Employment Commission early in the year for braceros (Mexican Nationals) to harvest his crop. Given favorable assurance, he invested money in fixing sheds and buying cots, etc., only to have his application turned down so late in the season that he says he feels lucky at this late hour to have employed a few hands.

Added to his troubles, he said the situation must be desperate, since he learned that while he was gone for a little while Monday, another broomcorn grower in the county had tried to hire his hands away from him.

Vernon King said that the crop, generally, is of fair grade and should bring from \$250 to \$300 per ton.

Water Control District Turned Down

The proposed hearing of a petition to create a new water control district in the Natalia area was dismissed today by the Medina County Commissioner's Court, due to a technicality in filing the petition.

Francis Richter, attorney for D. F. Stoy Water Works in Natalia, contended that the petition had never been filed properly in the county clerk's office.

He presented the petition to the court and pointed out that it did not bear filing marks of the county clerk's office, as required by law, before action could be taken by the county judge to call such a hearing. Testimony by Henry Schulte, county clerk and his deputy, Miss Cornelia Koch, proved that the document had been in the custody of their office since about May 15, yet it had not been filed with a seal stating the time and day of the filing.

Several members of the petition signers were present at the meeting of the court.

Farmers Now Harvesting Grain Sorghum

The 1957 grain sorghum harvest has begun in Medina County according to Russell Chapman, buyer, who predicts a good yield from the early crop.

"The grain that was planted late, looked pretty good until the hot dry weather set in," commented Chapman, "but it has been so badly damaged that it is almost a total loss."

Chapman said he bought his first Medina County grain from Frank Conrad and paid \$1.75 per hundred weight.

CORN Chapman said that early corn has made and the yield looks fair. The late crop, however, has also been damaged by heat and dry weather, but the late corn under irrigation will make, he said.

According to Chapman, corn should bring \$1.25 per bushel.

ABOUT YOUR HEALTH

A weekly public service feature from
The Texas State Department of Health,
HENRY A. HOLLE, M.D., Commissioner

With daytime temperatures consistently in the 90's, and with prospects of going even higher, it appears that what is needed is a complete overhaul of acceptable summer clothing for men.

Women have the right idea when it comes to summer clothing. Lightweight, sleeveless, open-necked dresses permit free circulation of air and encourage heat loss. A man, though, with a tie around his neck and belt around his middle — all topped off with a coat — is at a disadvantage in trying to throw off body heat.

Elevations of body temperature will develop inevitably in a man so dressed because such clothing prevents loss of body heat through conduction, radiation, and evaporation of sweat. And

this much is physiologically true: The body thermostat is so constructed that a fall in temperature is much harder to produce than is a rise.

Heat stroke, sometimes fatal, is due to exhaustion or inadequacy of the heat dissipating mechanism of the body. It occurs as a result of exposure to a hot, humid atmosphere such as is common over most of Texas during summer months. Sunstroke is a form of heat stroke, complicated by an absorption of radiant energy from the sun which causes a temperature rise in local body areas, such as the brain, higher than the temperature of the rest of the body.

How do you avoid heat stroke? By doing what you can to keep heat loss and heat production in balance.

The wearing of loose, airy clothing is known by physiologists to be among the best means of maintaining that balance. Open throat sport shirts and light trousers are of course more practical than heavy suits.

Excessive clothing causes excessive perspiration, and excessive perspiration means a loss of body fluid and salts. Unless the loss is compensated for by drinking additional quantities of water and consuming extra amounts of salt, painful stomach cramps can result.

Since body temperature represents the balance struck between heat production and heat loss, a disturbance in the value of either will be followed by a temperature change. The most sensible ways of avoiding the effects of a rise are these:

Eat lightly, avoid exertion, drink plenty of water and eat extra salt, and stay close to the fan. Above all, keep your clothing loose and airy.

FFA Advised

To Order Pigs, Lambs

The Hondo FFA Chapter held a regular meeting Monday night and enjoyed ice-cream socials. Reports were given on a Range Study School to be held in Junction August 12 thru 17. Charles Zuberbuehl has been selected to be Hondo's representative at the school.

Several FFA members are planning to join Delegate George Koch, and John McAnelly in attending the State FFA Convention in Ft. Worth July 17, 18, 19.

Boys were advised to place orders for feeder pigs for the Medina County Show. Several boys have already spoken for some.

Pigs are due to be born in August. Feeder lambs should be bought before September; the boys were told by McAnelly. After this date they all have been pretty well culled out.

There were 28 members present at the meeting.

WASHINGTON NEWSLETTER

An old story and a sad one was repeated once more last week. It was the announcement that, for the ninth month in a row, the cost of living had gone up again.

The general price level actually has been in a steady — and disturbing — rise for the last 18 months. In the past 12 months alone, the price level has climbed four per cent.

If this continues to be the average annual rise in prices, our price level will double in 18 years. This means that by 1975 the value of the dollar we earn and save today would be cut in half.

People have already been hurt by the steady increase in the cost of living. The monetary policy lowers the value of the dollar for those who spend and raises the value of the dollar for those who lend.

High interest rates are part of the increased cost of living. If you borrow money to buy a house, a car, a major household appliance, rising interest rates must be added to the price you pay. The Government must pay higher interest rates on the national debt — and that money, too, must come from the people generally.

Taxpayers are concerned, and they have a right to be, about the sliding value of the dollar. Widespread interest is being shown in the investigation of national

economic policy now being conducted by the Senate Finance Committee. Look for this issue affects everybody.

Recurrent floods are an economic drain that we cannot afford in Texas. This year's floods have provided convincing proof that, despite the benefits accruing from the highly successful operations of flood control projects, the extent of our controls has been limited. One fundamental reason is that a basin-wide plan of improvement has not been completed on any Texas river.

A river basin is a natural unit. Water resource development within each basin must be unified, integrated and progressive. That is why I am asking insistently for surveys of all the Texas river basins. I am working every day to get congressional authority for the needed surveys and to spur the Corps of Engineers into effective action. I know of nothing more basically important to Texas.

Congressional News Notes: Senate unanimously approved a seven months' extension of its Special Committee to Study the Foreign Aid Program. Congress sent to the President a bill providing an emergency 45-day extension of the voluntary home mortgage credit program pending approval of a three-year extension in the omnibus housing bill. Senate passed and sent to the White House a bill releasing from Government stockpiles for commercial sale 50,000 bales of extra long-staple cotton. Senate Public Works Committee approved a measure to extend the lend-purchase program for three years and to make it easier for building contractors to attract private loans.

Request Denied If It's Public Record

"Don't Publish This Item"

By JERRY JUNE BERGER

At least once a month we have a request from a reader to "keep this one thing out of the paper."

Our answer is the same to all, and that is, if their name appears on the public court records we intend to publish it and all listed. The public has a right to know who has disobeyed the law and for what reason.

As an extreme example, suppose newspapers kept it a secret when a man is arrested for molesting a minor. How would parents of minors then feel when they heard that the newspaper had left out this information simply because the arrested person requested it? Or suppose they never heard about it at all and the person next chose to bother a child in their family?

Most offenses listed in the weekly papers are minor ones, and we do not publish these merely to hurt the feelings of the person or persons involved. There have been occasions when employees of the Anvil Herald have paid a fine and these were listed right along with those of everybody else.

We feel that this is the only fair way to handle the situation. A newspaper leaving out these items on request is a newspaper without a backbone and not worthy of the name.

So our advice to would-be requesters is this: If you can get the court officials to leave the record off their books, go right ahead. But if they list it on their records, it will be useless to come to us requesting omission. It doesn't embarrass us a bit to say "no."

Biggest Objection To Educational Aid

A distinguished Columbia University educator, Hamden Forkner, made this point on a visit to Dallas: No federal aid to education would be better than any aid which gives Washington control over school systems.

The public has been conditioned to federal money for highways; for dams, flood control, foreign nations, veterans, farmers, irrigation projects.

But the most dangerous of all would be aid for, then control of the instruction of young minds.

Future generations then could be molded in the image of the giver.

Right now the giver—the Federal Government—may be sincere in helping distressed communities build more schools. It may be determined that educational control be left in local hands.

But once the precedent of aid-from-Washington is set, that aid grows. In time control goes with it. The two are as inseparable as the finger and the hand.

When local communities, through local school boards, abdicate their authority and transfer it to Washington—just for money—they automatically lose control over textbooks, teachers and curricula.

There are these other objections to federal aid: (1) It is not needed—communities are building classroom space faster than enrollment increases. (2) The federal budget is too high already.

But these are of secondary importance. Centralized control is the objection that must be first in the minds of the public.

LETTER TO THE EDITOR

Procter St.
Arthur, Tex.
June 23, 1957
Mr. Berger,
I was looking at the AP magazine here at the Port Arthur News just now and saw the story about the recent TPA convention. Congratulations on having attained your new position.

During the summer I have an intention to learn advertising first-hand. It's a great opportunity to put into practice what I've learned in school, and this reminds me of a great deal of my spring of 1956 issue of the Anvil-Herald, when about 10 of us A&M students learned in a week on your paper how to write a paper on my desk.

here at the News, as I am proud of having had part in handling the advertising end of that issue. Since last year, I've had several occasions to use the knowledge gained in Hondo—selling and laying out ads for college publications, in my schoolwork, and now in Port Arthur.

The week in Hondo taught me a great deal about the newspaper business, advertising, and just about people. It was truly the most valuable seven days I've ever spent, and want you to know I appreciate the benefit attained from putting out an issue of The Anvil-Herald. I hope future students will have the opportunity to learn as much in the years to come as I did.

Yours truly,
Mark S. Smith

Highlights and Sidelights FROM Your State CAPITOL

"Summertime... and the livin' is easy," says the song. But under the State Capitol dome there's quite a bit to keep folks uneasy, even in this summer lull.

House Speaker Waggoner Carr stirred things up by saying he was afraid the state couldn't afford the possible half-million-dollar tab for a special session in the fall. It might mean new taxes, said Carr, since the last Legislature appropriated nearly every cent now in sight for the next two years.

Gov. Price Daniel, who is considering the special session, hastened to say that he had "no idea" of submitting a new tax request. He pointed to his recent effort to get foreign oil imports limited so Texas production could be increased. Much of Texas' tax revenue comes from oil production, so this move, if successful, could improve the state's financial outlook.

Another source of uneasiness is the Travis County grand jury—hard at work, despite the insiders' prediction of six or seven indictments resulting from the ICT and bribery investigations begun by the Legislature.

If true, this means more people are in trouble than outsiders can as yet account for.

Others are critical of the State Water Board's inaction. Plagued by internal disagreements, the board delayed a year in ruling on the Canyon Dam squabble. In this case the City of San Antonio and the Guadalupe-Blanco River Authority locked horns over whether San Antonio could get water from the proposed dam.

Governor Daniel will be able to make a new appointment to this board in August.

COX TRIAL DUE

Trial of Ex-Rep. James E. Cox of Conroe is set to open Monday (July 15), but there are good indications it'll be delayed.

Cox was indicted last spring on charges of consenting to accept a bribe. Dist. Atty. Les Procter says the state is "ready to go." But defense attorneys admit they'd rather wait until publicity dies out and the weather cools off. They spoke of probable postponement moves.

Reporters, recalling the sweltering weeks spent covering the trial of Former Land Commissioner Bascom Giles two summers ago, admit they're not eager to see this one start now.

INSURANCE STUDY ON

An overall survey of the Texas Insurance Commission's operations by a private outside agency is going forward with official approval from all sides.

First action of the new Insurance Board was to request a Texas Research League study of the department. Actually, the League already had begun the task after requests last spring by then-Comm. Chmn. John Osorio and by a House investigating committee.

Reorganized board took the reins after swearing-in of new member David B. Irons and Joe P. Gibbs, who had served "temporarily" for the past few months. Former Dist. Judge Penn Jackson was installed earlier.

Governor Daniel expressed confidence the board would soon get rid of the few "rotten apples" still remaining in the insurance industry. None of the men sought the jobs, said the governor; they were "drafted."

50-50 PLAN LAUNCHED

A new era in Texas highway building opened when the state executed its first contracts to help counties with right of way costs.

Until now, law required local governments to buy the land and the State Highway Department to pay construction costs. A new law passed last spring allows the state to share 50-50 in land costs. Highway Engineer D. C. Groer says that the highway department is working ahead of the effective date of the bill (Aug. 22), "in order to get the program under way."

Counties with which contracts were negotiated are Jefferson, Falls, Cherokee, Wood and Hill.

SCHOOL STANDARDS UPPED

More money and more study are in prospect for Texas public school children.

State Board of Education voted to hike state aid to schools by \$41 per pupil. It means \$82 per pupil for roughly two million pupils in the 1957-58 year.

Board also gave final confirmation to a plan to raise accreditation requirements for high schools. Future graduates will have 16 units of study, one more than before. Health and physical education won't count, but credits must include four in English, two in math, two in laboratory science.

Beginning in 1959 accredited high schools must have four, instead of three, full time teachers.

UT SALARIES RAISED

Teachers in the University of Texas system can look forward to raises averaging \$800 a year for the coming school year.

Due to bigger Legislative appropriations, new budget adopted by UT regents is 16 per cent higher than this year's. Faculty members will get \$500 to \$2,500 raises, depending on rank. For the average prof, it means a jump from \$6,000 to \$6,815 per year.

RAIN NEEDED AGAIN

Almost a month of dry sunny weather has many Texas farmers returning to an old refrain—"more rain."

U. S. Department of Agriculture reports that most of the state, except that touched by the hurricane, needs showers.

Range growth has slowed, said USDA, and cotton is running very late. But it predicted good feed crops, possibly one of the largest sorghum harvests on record.

SHORT SNOTS

Texas Construction Contract awards in June were up \$34,000,000 over last year, reports the Texas Contractor magazine. A billion-dollar construction year is foreseen. Truck freight rates will go up five per cent beginning July 10, announced the Railroad Commission. It will cost shippers an estimated \$2,500,000 per year. Texas' draft quota for August is down slightly, 547 compared to 661 in July. Col. Morris Schwartz, State Selective Service Director, also announced new regulation giving draft exemption to members of Ready Reserve units. C. C. Crutchefield of Austin has been named director of the League of Texas Municipalities. He succeeds E. E. McAdams who served as director for 22 years. Governor Daniel has asked the federal government to approve flood control projects for Hudson, Bell, Guadalupe, Comal and Hays Counties. Work would be financed jointly by the U. S. government, local water and soil conservation districts and the affected land owners. R. L. Phinney, district director, Internal Revenue Service, has announced that farmers may obtain refunds of federal excise tax on gasoline used for farming purposes during the fiscal year ending June 30. Claims must be filed before Oct. 1 on Form 2240 which may be obtained at county agents' offices.

KILGORE'S CAPITOL COMMENTS

FLOODS in the Southwest this Spring have caused millions of dollars in damages. But for the 25 flood control works operated in the area by the U.S. Corps of Engineers it is estimated that those damages would likely have been more than double. Preliminary estimates made by the Engineers indicate that direct property damages have amounted to \$125 million. This does not include associated economic losses such as the loss of business and many other which cannot be estimated at so early a date. Had the 25 reservoirs in the five state area not been in operation, the Engineers estimate that an additional \$142 million in direct damages would have been sustained.

THE CONGRESS has authorized various projects in the flood area which will have a total flood storage capacity of 34,510,000 acre feet. Of this 50 per cent is in operation, 23 per cent is under construction and the remaining 27 per cent has not been started.

THE BRAZOS RIVER BASIN has been the hardest hit of any Texas river insofar as flood damage is concerned. The Engineers reported that although exact information is not yet available, it is probable that a new flood record was set for the basin. The floods in the basin have caused an estimated \$38 million in damages which would have been much greater except for the effectiveness of Whitney and Belton reservoirs which have a combined total capacity of more than three million acre feet, over two-thirds of which is flood storage. There are authorized for the basin six additional reservoirs with a flood storage capacity of over two million acre feet and five local flood protection works. None of these is under construction as yet. Had they been in operation this Spring they would have prevented an estimated \$28 million of the \$38 million in direct damages sustained. In addition to that, millions of acre feet of water would have been added to storage for future use.

WE HAVE BEEN LUCKY in South Texas. We have had the rains, but not the heavy flood losses. This should serve as a reminder to us all to proceed with water conservation and flood control. We cannot expect always to be so fortunate.

PERSONAL APPEARANCE

By Jerry June Berger

Some time ago, MRS. MORRIS SHELTON told PENNY STRICKLAND to come visit them when her mother went to the hospital for their expected baby. So Friday, even though her aunt had come all the way from Douglas, Ariz., to help take care of her, Penny packed up her duds and headed for the Shelton home.

That night, a baby boy, ALEXANDER CONWELL STRICKLAND, III, joined the Strickland family of three daughters.

That aunt who is helping out on the home front is Mrs. Strickland's sister, MRS. A. S. WHATLEY. But her load was a relatively light one. Not only was Penny away, but also PAM—she was at camp at Alto Frio, Baby SUSAN then was her main charge.

A lot of families were getting the babies they were hoping for the past few days. The Stricklands had a boy, the J. W. HOLLAWAYS have a new daughter to join their two sons, and a baby boy evened up the score at the HAROLD HERRING home when he became the second boy. The new arrival also has two older sisters.

IS REMEMBERED BY A FORMER

HONDO BOY

HEINO ROTHE RETIRES

This columnist is in receipt of a personal letter from a longtime personal friend, Henry Heino Rothe, a former Hondo boy but for a number of years an attaché of the Florida Department of Agriculture as State Dairy Supervisor of its Dairy Division, and residing at Gainesville in that state.

It seems but a short time, comparatively, since he was a boy, chasing dogs on the upper Hondo ranch of his father, the late Henry Rothe.

After finishing school at Texas A&M College, he formed a connection with the Agricultural Department of his adopted state where he has earned a reputation that has spread beyond that state's bounds.

—FD—

Along with his letter, he sends several inclosures, among them a copy of the "Journal of Milk and Food Technology," a publication which, as its name implies, has to do with food, and especially milk and milk products, in a highly technical sense, with a corps of Associate Editors that covers every area of the United States and part of Canada.

From its columns, we quote the following mention of Mr. Rothe's retirement which is printed beneath his photograph, the two occupying half of a magazine page:

DR. H. H. ROTHE RETIRES

Dr. H. H. Rothe has announced his retirement after 20 years of distinguished service as State Dairy Supervisor for the Dairy Division of the Florida Department of Agriculture. In announcing his retirement Dr. Rothe stated that his greatest personal satisfaction came from helping the small struggling dairymen who found it difficult to stay in business and still meet the rather stringent regulations which are necessary in the production and distribution of milk. Through his efforts, as well as others, the quality of Florida-produced milk is as good as any in the nation.

Dr. Rothe had early in his career received advanced degrees

—FD—

We shall be glad to place these booklets where they can render the greatest good to the most people, and for them and with them join in congratulations on his achieving success in his life work and for his remembrance of the people among whom he spent his boyhood.

Beauty in motion—Chevrolet Bel Air Sport Sedan with Body by Fisher.

Here's why Chevy's best showroom is the road!

Because Chevrolet's sleek good looks, its advanced features, are only part of the story. The big bonus is its remarkable roadability, the crisp precision handling that has posted an entirely new standard for cars in every price class. There are reasons for this, of course: Chevrolet's balanced weight distribution that takes

excessive loads off the front wheels, the wide stance of outrigger rear springs, Ball-Race steering, spherical-joint front suspension. Sure, you can admire the sculptured lines in the showroom. But Chevy's a car specifically designed for beautiful motion—you have to travel in this one to know just how terrific it is. Try it, this week!

Moos-Henke Wedding Vows Exchanged In Saint Johns

Miss June Marie Moos, daughter of Mr. and Mrs. Erwin J. Moos of Hondo, and Johnny Alfred Henke, son of Mrs. Selma Henke of New Braunfels, exchanged vows in a double ring ceremony in St. John's Catholic Church on June 15, with the Reverend Harold Ehlinger officiating.

To traditional wedding music, played by Mrs. Volney Boon at the console of the organ, the bride entered the church with her father. She wore a ballerina length gown of lace over taffeta designed with a fitted bodice and flared skirt. Her veil of illusion was attached to a cloche of seed pearls. An orchid centered a colonial bouquet of carnations which she carried.

The maid of honor and bridesmaids wore blue lace over taffeta and carried colonial bouquets of carnations. Miss Bonnie Nell Haby was maid of honor and Miss Jo Ann Henke and Darlene Nolte of New Braunfels and Miss Mary Lu Moos of Hondo were bridesmaids.

Bill Moos, brother of the bride, was best man. Groomsmen were Steve Rimmel and Jackie Wood of New Braunfels and Buddy Wolff of Gonzales. Bobby Moos of Hondo and Arnold Moos, Jr. of San Antonio were ushers.

A reception was held in the home of the bride's parents with daisies for the centerpiece of the table and used throughout the house. Assisting at the reception were Miss Diane Krause of San Antonio and Miss Marjorie Plumeyer.

The young couple will reside in San Antonio where they are both employed.

For Buick Owners Only

If you own an earlier Buick than our 1957 product, you're probably reluctant to part with it — and who can blame you?

After all — regardless of year or model — there's nothing like a Buick to set you a cut above the ordinary run of mortals — make you feel master of all you survey.

But listen. As wonderful as your present Buick is — we can name at least six good reasons why you should look into a 1957 Buick now.

Six good reasons why you should try this dream car to drive — today.

Read 'em — and leap!

6 Reasons To See Your Buick Dealer Today

1. Today's INSTANT Dynaflo® — Response? When! Smoothness? Wow! Never in history such a sweet sense of control, security, safety for yourself, your family, everyone else on the road!

2. Brilliant V8 Power on Tap — This big engine — completely new in 1957 — blends plenty of eager energy with silky silence. World's most advanced combination of displacement, compression, bore-stroke ratio, nodal-point balance!

3. Zestful New "Nested" Ride — Take Buick's traditional torque-tube, coil-cushioned ride — cradle it to the lowest center-of-gravity in Buick annals — and brother! You never had it so smooth.

4. Buick's One and Only Safety-Buzzer® — What's the safest pace you want to drive at? Whatever it is, turn a dial till that figure appears in a "window." If you exceed that pace, the buz-z-z-z tells you. Simple. Thoughtful. A great safety advance.

5. Unique Ball-Joint Handling and New Braking — Your steering is amazingly easy. Your cornering is amazingly deft. Your braking stays on the level. (And Buick's powerful new brakes dig in for straighter, swifter, safer stops!)

6. Suave Low-Sweep Styling — Clean, crisp, classic lines in the finest Buick tradition — beautiful to look at and five with. Up to 3.4 inches lower, yet more room inside. Including legroom for the folks in the middle!

P.S. You'll like today's Buick prices — and your Buick dealer's high trade-in allowances.

*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century — optional at modest extra cost on the Special. Safety-Buzzer standard on Roadmaster, optional at extra cost on other Series.

PAGING THE LADIES

Mrs. James Lee Squires

Miss Hartman, J. L. Squires Wed In Candlelight Service

The First Methodist Church in Hondo was the setting for the candle light wedding of Miss Kathryn Hartman and James Lee Squires Saturday evening, June 22.

The bride is the daughter of Mr. and Mrs. Roy W. Hartman and the groom is the son of Mr. and Mrs. John Squires of South Bend, Ind.

The double ring ceremony was read by the Reverend Harold S. Goodenough. Mrs. H. B. Eggen, organist, played the traditional wedding music and accompanied Mrs. Harold S. Goodenough as she sang "Because" and "The Lord's Prayer".

Given in marriage by her father, the bride wore a gown of white lace and nylon net designed with a fitted bodice. The net yoke had a collar of lace and the long sleeves tapered to points over the wrists. Panels of lace inserted in the center front and back added fullness to the bouffant skirt. Her fingertip veil was held by a crown of pearl orange blossoms. She carried a white Bible topped with two hybrid orchids. Miss Rowena Hartman, sister of the bride, was the maid of honor. She wore a ballerina length pink nylon net dress over taffeta and her flowers were a colonial bouquet of orchid carnations and satin streamers.

Serving his brother as best man was John C. Squires, Jr. of South Bend, Ind. Ushers were James Ham and Everett Dawson of San Antonio.

Immediately following the ceremony, a reception was held in the church parlor. The table was covered with a white cut glass cloth centered with an arrangement of pink and white asters, flanked on each side by crystal candle holders with white candles. Miss Charlotte Crusturner served the decorated tiered cake while Miss Mary Lou Ward served the punch. Assisting in serving were Mesdames Robert and R. V. Stanga, Amos Har-

lee, F. G. Tomerlin, Marguerite Murrill, Roy Pfiel, Robert Faselier and Miss Roberta Faselier.

Miss Dianne Hartman was in charge of the guest book.

After a wedding trip to South Bend, Ind. the young couple will make their home in San Antonio.

SHOWER

Miss Kathryn Hartman, bride elect of James Lee Squires, was honored at a tea and miscellaneous shower Thursday afternoon, June 20, at the home of Mrs. R. W. Meyer.

Receiving with the honoree were her mother, Mrs. Roy W. Hartman, the groom's mother, Mrs. John C. Squires of South Bend, Ind. and Mrs. R. W. Meyer.

Miss Rowena Hartman presided over the guest book.

The tea table was covered with a hand crocheted white cloth centered with an arrangement of pink and white asters in a footed crystal bowl flanked on each side by crystal candle holders with white candles. The pink and white decorated cake was served by Miss Mary Lou Ward and Mrs. John L. Graff while Mrs. George Wilson and punch.

Miss Hartman was in orchid cotton satin and wore a shoulder corsage of white carnations. Her mother wore a blue green acetate and rayon dress with a pink carnation corsage. The groom's mother was wearing a gold polished cotton dress with white carnations and Mrs. Meyer wore blue carnations on a pink sheer cotton dress.

Roses and daisies were used in floral arrangements on the gift tables.

Hostesses were Mesdames Milton Fohn, John Faselier, Robert Ward, Norman Gray, Robert Faselier, G. C. McAnelly, Karl Faselier, George Wilson, John L. Graff, R. V. Stanga, Amos Harlee, John Tondre, Marguerite Murrill, Clinton Wiemers, Marvin B. Muennink and R. W. Meyer and Mesdames Mary Lou Ward and Charlotte Crusturner.

Moebius-Heiligman Vows Exchanged In St. Paul's

Miss Virginia Elizabeth Moebius, daughter of Mr. and Mrs. Fritz M. Moebius, became the bride of Raymond Charles Heiligman, son of Mr. and Mrs. Anton Heiligman of Dunlay, at a candlelight service in St. Paul's Lutheran Church in Hondo on Saturday evening, June 22.

The Reverend Konrad Windecker officiated at the double ring ceremony and Miss Barbara Brucks, at the organ, furnished the traditional nuptial music.

The bride, who was given in marriage by her father, wore a gown of white lace and tulle. The fitted lace bodice was trimmed with applique at the bateau neckline and the long lace sleeves came to points over her wrists. The bouffant skirt of tulle was circled by a band of the lace atop a pleated flounce. Her fingertip veil billowed from a crown of seed pearls and iridescent sequins. She carried a cascade bouquet of white carnations with satin streamers. Her only ornament was a three-strand pearl neck lace, a gift of the groom.

The bride's only attendant was her niece, Miss Barbara Wernette of San Antonio. Her ballerina length gown was fashioned of blue net over taffeta, featuring a bouffant ruffled skirt. A blue half hat of the net adorned her head and she carried a colonial bouquet of pink carnations with satin streamers.

Best man was Lawrence Heiligman, brother of the groom and Kenneth Wernette of San Antonio and Preston Moebius, Jr. of Hondo, nephews of the bride, served as ushers.

The gift tables were decorated with white Shasta daisies and the bride's table was laid with a white imported silk damask tablecover and held a centerpiece of summer flowers. The table which held the bride's book was adorned with a lace cover. Miss Patricia Neuman registered the guests.

Among the out-of-town guests present were Mesdames Richard Opperman, Mrs. Noriven Waltersdorf, Robert Waltersdorf, Oscar Wernette, Frank Heiligman, Joe Heiligman, and Misses Barbara Wernette, Marilyn Wernette, all of San Antonio.

AS AMERICAN AS LOG-ROLLINGS

Cooperation is as old as mankind. It's as American as the old-fashioned log-rollings when all the neighbors pitched in to help a young fellow build a log cabin for his bride. Or when the whole community got together to build a little church or school. Cooperatives are as old as America, and as American as ham and eggs.

Rural electric cooperatives were set up for exactly the same reasons that folks used to hold log-rollings. They were organized to bring electric power to rural farms, homes, schools and businesses. Nobody made a profit out of the log-rollings. Nobody makes a profit out of a cooperative. But both the log-rollings and the cooperatives help folks SAVE a lot of money or get something they couldn't get at all otherwise.

Our rural electric cooperative is owned by the very consumers it serves. It is operated on a non-profit basis to provide these rural families, schools and businesses with all the electricity they want—at the lowest possible cost. Today, working shoulder to shoulder with nearly 1000 other rural electric cooperatives throughout the nation, we serve a total of over 14 million rural people.

We got together on this electric log-rolling because there was no other way to get the job done. And we are proud to say we have been successful.

Lutz-Boehle Wedding Rites Solemnized In St. John's

The marriage of Miss Bernice Lutz, daughter of Mr. and Mrs. Frank Lutz and Merlin Boehle, son of Mr. and Mrs. H. J. Boehle was solemnized Saturday morning, June 22, in St. John's Catholic Church, Hondo, with the Rev. H. J. Ehlinger officiating.

The bride wore a gown of satin and net fashioned with a fitted lace bodice with a standup collar and long sleeves. The bouffant skirt of net over satin was designed with a train. Her fingertip veil of illusion was banded with lace and was fastened to a bandeau.

Mrs. Milton Theis was matron of honor. She wore a blue net and taffeta dress and carried a white bouquet of carnations.

Mrs. Oscar Rohrbach and Miss

Judy Hartman served as bridesmaids and wore matching dresses of pink net and taffeta and carried bouquets of pink carnations.

Miss Nita Saathoff was flower girl and also wore pink net and carried a small bouquet of pink carnations.

Sylvan Lutz, brother of the bride, was ring bearer while Harold Lutz served as best man. The groomsmen were John Henry Boehle and Horace Britsch. Ushers were Milton Theis and Oscar Rohrbach.

A reception was held in St. John's Parish Hall.

After a wedding trip to Alpine and Mexico the couple will reside at Quihi.

Miss LeBlanc, A. C. Bendele Wed In Double Ring Rites

Miss Annette Le Blanc of San Antonio, daughter of Mr. and Mrs. Abel Le Blanc of Alice, became the bride of Armin Charles Bendele, son of Mr. and Mrs. Armin H. Bendele of Devine and Hondo, in rites Saturday morning, June 23, in St. Cecilia's church in San Antonio, the Rev. J. Walsh officiating at the double ring ceremony.

The bride, given in marriage by her father, chose a white crystalline gown fashioned with a slightly elongated basque bodice and trimmed with a yoke of embroidered Alencon lace studded with sequins. The same lace motif outlined the apron effect on a full skirt which fell in a chapel length train. Her fingertip length veil was held by a cap of lace and satin, studded with sequins and pearls. She carried a white prayer book topped with a white orchid and streamers of ribbon.

Miss Beverly Poth of Pleasanton was maid of honor. She wore a gown of orchid crystalline styled like the bride's dress with a matching cap and sequin studded veil. The bridesmaids were Mrs. Dorothy Jean Boehme of Castroville, sister of the groom; Miss Mary Jo Hahn of Ingleside; Miss Bobby Fay Dillard of San Antonio; and Miss Atta Ray Pate of San Antonio. The bridesmaids' dresses were identical and they carried cascades of purple asters.

Debbie Bendele, cousin of the groom, was flower girl. Her dress of white crystalline was fashioned like the bridesmaids. She carried a basket of flowers. Roger Lynn Boehme, nephew of the groom, was ring bearer.

Alex Tschirhart of San Antonio served as best man, and groomsmen were Clovis Boehme, Castroville; Kenneth Bendele, Dunlay; Emery Delavan, San Antonio. Ushers were Gene Felkner, San Antonio and Lynn Boehme, Castroville.

For her daughter's marriage, Mrs. Le Blanc chose to wear a pale blue lace dress with white accessories and an orchid corsage. The groom's mother wore an aqua lace dress with beige accessories and her corsage was an orchid.

The reception was held at the Manor Tea Room in San Antonio following the ceremony. Two identical linen covered tables at each end of the large reception room held punch bowls, silver coffee service, and wedding cake which served about 150 guests. White gladioli and heather at vantage points decorated the room.

Mrs. Gwen Nueman, Mrs. Hilmer Bendele, Mrs. Emery Delavan and Mrs. Billy Trawick assisted in the house party.

They left after the reception for a honeymoon in Monterrey, Mexico. For traveling, Mrs. Bendele chose a navy blue suit with white accessories and an orchid corsage.

Out of town guests were Mr. and Mrs. George Ramsey and family of Ingleside; Mrs. Billy Trawick and baby of San Diego, Calif.; Mrs. Brady Ramsey of Ingleside, grandmother of the bride; Mr. and Mrs. Doug Crawford of Alice and Mrs. Fritz Hahn of Ingleside.

Mrs. Helen Hubbard, maternal grandmother of the groom; Miss Mary Hubbard, Mr. Armin Bendele, paternal grandfather of the groom; Mrs. Walter Bendele and daughter, Kathie; Mr. and Mrs. E. A. Bendele; Mrs. Johnnie Delavan; Mrs. Marvin Haass; Mr. and Mrs. Oscar Bendele; Mr. and Mrs. Paul Bendele; Mrs. Elton Lutz and daughters all of Hondo. Mrs. Arthur Nester and daughter of D'Hanis; Mr. and Mrs. Gary Bartelt and daughter of Abilene; Mr. and Mrs. Clovis Boehme and Mr. and Mrs. Lynn Boehme of Castroville.

Miss Schoellman Becomes Bride Of Emil G. Barth

Before the flower decked altar of St. John's Catholic Church in Hondo, Miss Elizabeth Ann Schoellman, daughter of Mr. and Mrs. Ben Schoellman, became the bride of Emil George Barth, son of Mrs. Katie Barth. The double ring rites were read by the Reverend H. J. Ehlinger; Miss Arleen O'Neal, soloist, was accompanied by Mrs. Volney Boon at the console of the organ.

Entering the church with her father, the bride wore a floor-length gown of nylon tulle and hand clipped Chantilly lace. The fitted bodice featured a face framing Queen Ann's collar with sleeves tapering to points over the wrists. The bouffant skirt was designed with alternating Chantilly and tulle ruffles down the center back. A crown of pearls and sequins held her fingertip veil of illusion in place. She carried a white prayer book topped with an orchid.

Miss Mary Margaret Naegelin,

cousin of the groom, was maid of honor. She wore a ballerina length dress of white lace over pink taffeta and carried a crescent shaped bouquet of white carnations. Miss France Naegelin, also a cousin of the groom, wore a ballerina length dress of net over pink taffeta and carried a bouquet similar to that of the maid of honor.

Forrest Horecka served as best man and James Schoellman, brother of the bride, was groomsmen. Paul Graff and Henry Wendle served as ushers.

A wedding luncheon was served, immediately following the wedding ceremony, in St. John's Parish hall to 120 guests. Miss Agnes Kubesh, aunt of the bride, served the wedding cake. Miss Mary M. Naegelin presided at the bride's book.

After a wedding trip, the young couple will be at home in Corpus Christi where the groom is stationed. He is serving in the Navy.

County Agent News

By C. B. Gaston

The refund of Federal taxes on gasoline used for farming purposes can be made at any time. These forms were mailed to all farmers recently who made application last year for the refund and these forms should be used as directed. A limited number of these forms were sent the county agent for those who did not receive the application through the mail. If you did not receive an application, mail a card to the county agent or call by the office for one of the forms. In case the county agent is out of the office they will be on a desk in the hall. Publication 308, "Farmers Gas Tax Refund Guide" is available for those that might have a question about being eligible for the refund.

TEXAS EGG LAW

The first meeting to explain the recently passed Texas Egg Law was held at Edinburg last week and about 200 egg producers and egg handlers were present. A similar meeting will be held at the Hilton Hotel in San Antonio on July 29th for the people in this area. These meetings are being held by the Extension Service cooperating with the State Department of Agriculture and the USDA. And all interested people are invited to the meeting in San Antonio.

At the Edinburg meeting the people requested meetings for training in egg grading. The officials agreed to hold a series of these meetings during the fall, but will want to know the number who will attend one in the San Antonio area. They have asked that you notify the county agent by August 1 if you are interested in attending a school on

FANCY PANTRY

To make the hot, hot, hot of the good old summer-time seem like the cool, cool, cool of the evening which a current song recommends highly, try some of the following recipes. These were sent in by one of our gentle (aren't they all?) readers who forgot to sign her name. We hope our anonymous contributor did not have an ominous method in her modesty!

NEXT DAY FRUIT SALAD

Ingredients:

- 2 cups each orange sections, diced pineapple, Queen Anne pitted cherries
- 2 cups tiny marshmallows
- 4 ounces chopped blanched almonds
- 2 eggs
- 2 tablespoons sugar
- 1 cup light cream
- 1 cup heavy cream, whipped
- Juice of 1 lemon

Method:

Drain fruits (use juice for iced drinks); add marshmallows and almonds. Beat eggs until light and frothy. Gradually add sugar, light cream, lemon juice. Cook egg mixture in double boiler until thick and creamy, stirring constantly. When cool, fold in whipped cream. Pour this over the fruit mixture and mix lightly with

fork. Chill thoroughly (about 24 hours) but do not freeze. Yield: 12 generous servings. This is a wonderful party salad.

CREME DE MENTHE MOUSSE

Every time we see the word "mousse" we recall a school days spelling match. We met our orthographical Waterloo on this word. The winner (a forerunner of the present day Smarty Pants) taunted us: "Even a goose could spell mousse". We remember retorting "Which is why I couldn't" but at least we did learn the proper pronunciation!

Now for the recipe:

Ingredients:

- 30 large marshmallows
- Two thirds cup Creme de Menthe
- 1 pint heavy cream, whipped

Method:

Place marshmallows and liqueur in double boiler. Stir until marshmallows are dissolved. Cool thoroughly and gently fold in whipped cream. Pour in freezing tray and freeze at coldest setting. Reset control to normal and let ripen until serving time. Serve plain or topped with chocolate sauce. Delicious and very special!

FIG AND ORANGE MEDLEY

This is a "quickie" — no cooking. Serves six.

Ingredients:

- 1 cup heavy cream, whipped
- 1 cup sweet orange sections (cut small)
- 1 cup chopped Fig Newton cookies
- 1/2 cup chopped walnuts (or pecans)

Method:

Fold cookies into whipped cream. Add nuts and oranges, chill thoroughly, serve in glass bowls or cups.

SNOW WHIP

For the calorie-conscious, this serves eight weight-watchers at less than 100 calories per serving.

Ingredients:

- 1 envelope plain gelatin
- 1/2 cup sugar
- 1 teaspoon salt
- 1 cups very hot water
- 1 6-ounce can any frozen fruit juice

Method:

Mix the three dry ingredients and dissolve in the 1 cup hot water until gelatin is thoroughly dissolved. Add the can of frozen juice (orange or lemon or tangerine or pineapple may be used). Stir until frozen juice melts and mixes. Chill in refrigerator until slightly thickened. Then add the two unbeaten egg whites and beat with a rotary beater until mixture begins to hold shape. Turn into one large or eight small molds and chill until firm.

Having given you your just desserts for this week, we ask only that you send in your recipes so that we can keep FANCY PANTRY rendering its appetizing service.

SECO PHILOSOPHER

By Mrs. Adolph Hutzler

Alarmed By Ike's Proposal

States Take Relief Load

Dear editor:

I don't mind admitting I'm worried this morning.

According to an article I read in a newspaper last night — I was so upset over what I read I don't even remember now where I found the paper — President Eisenhower made a speech before a meeting of all 48 State Governors the other day and urged that the Federal government cut out some of its work and turn it over to the states.

For example, he said, disaster relief ought to be paid by the states instead of Washington.

Now I believe in state's rights all right, and I go further, I believe also in county (parish) rights, precinct rights, community rights, and farm rights, and on this farm I believe in husband's rights, but Ike's proposal has sure thrown a bombshell in my thinking.

That is, if a man gets in financial trouble and calls on Washington, and Washington refers him back to his state, what's to keep the state from referring him back to his county, his county to his precinct, his precinct to his community, and his community telling him to help his ownself?

You can see what this would lead to. We'd be right back where we started, with everybody expected to look after himself, and a whole generation of progress toward telephoning Washington would go out the window. This

country just wouldn't be the same again.

Not only that, but some smart aleck would then come up with the proposal that if Washington is going to turn disaster aid back to the states, why couldn't it turn foreign aid back to the foreign countries, and anybody who knows anything at all about the world today knows it would collapse next Tuesday if Washington shut off all foreign aid.

I tell you, we're treading on dangerous ground when we start talking about everybody relying on his own resources. I intend to buy a whole bunch of postcards and write the entire United States Congress about this, just as soon as my next check from Washington gets here.

Yours faithfully,
J.A.

is the word for Humble Service

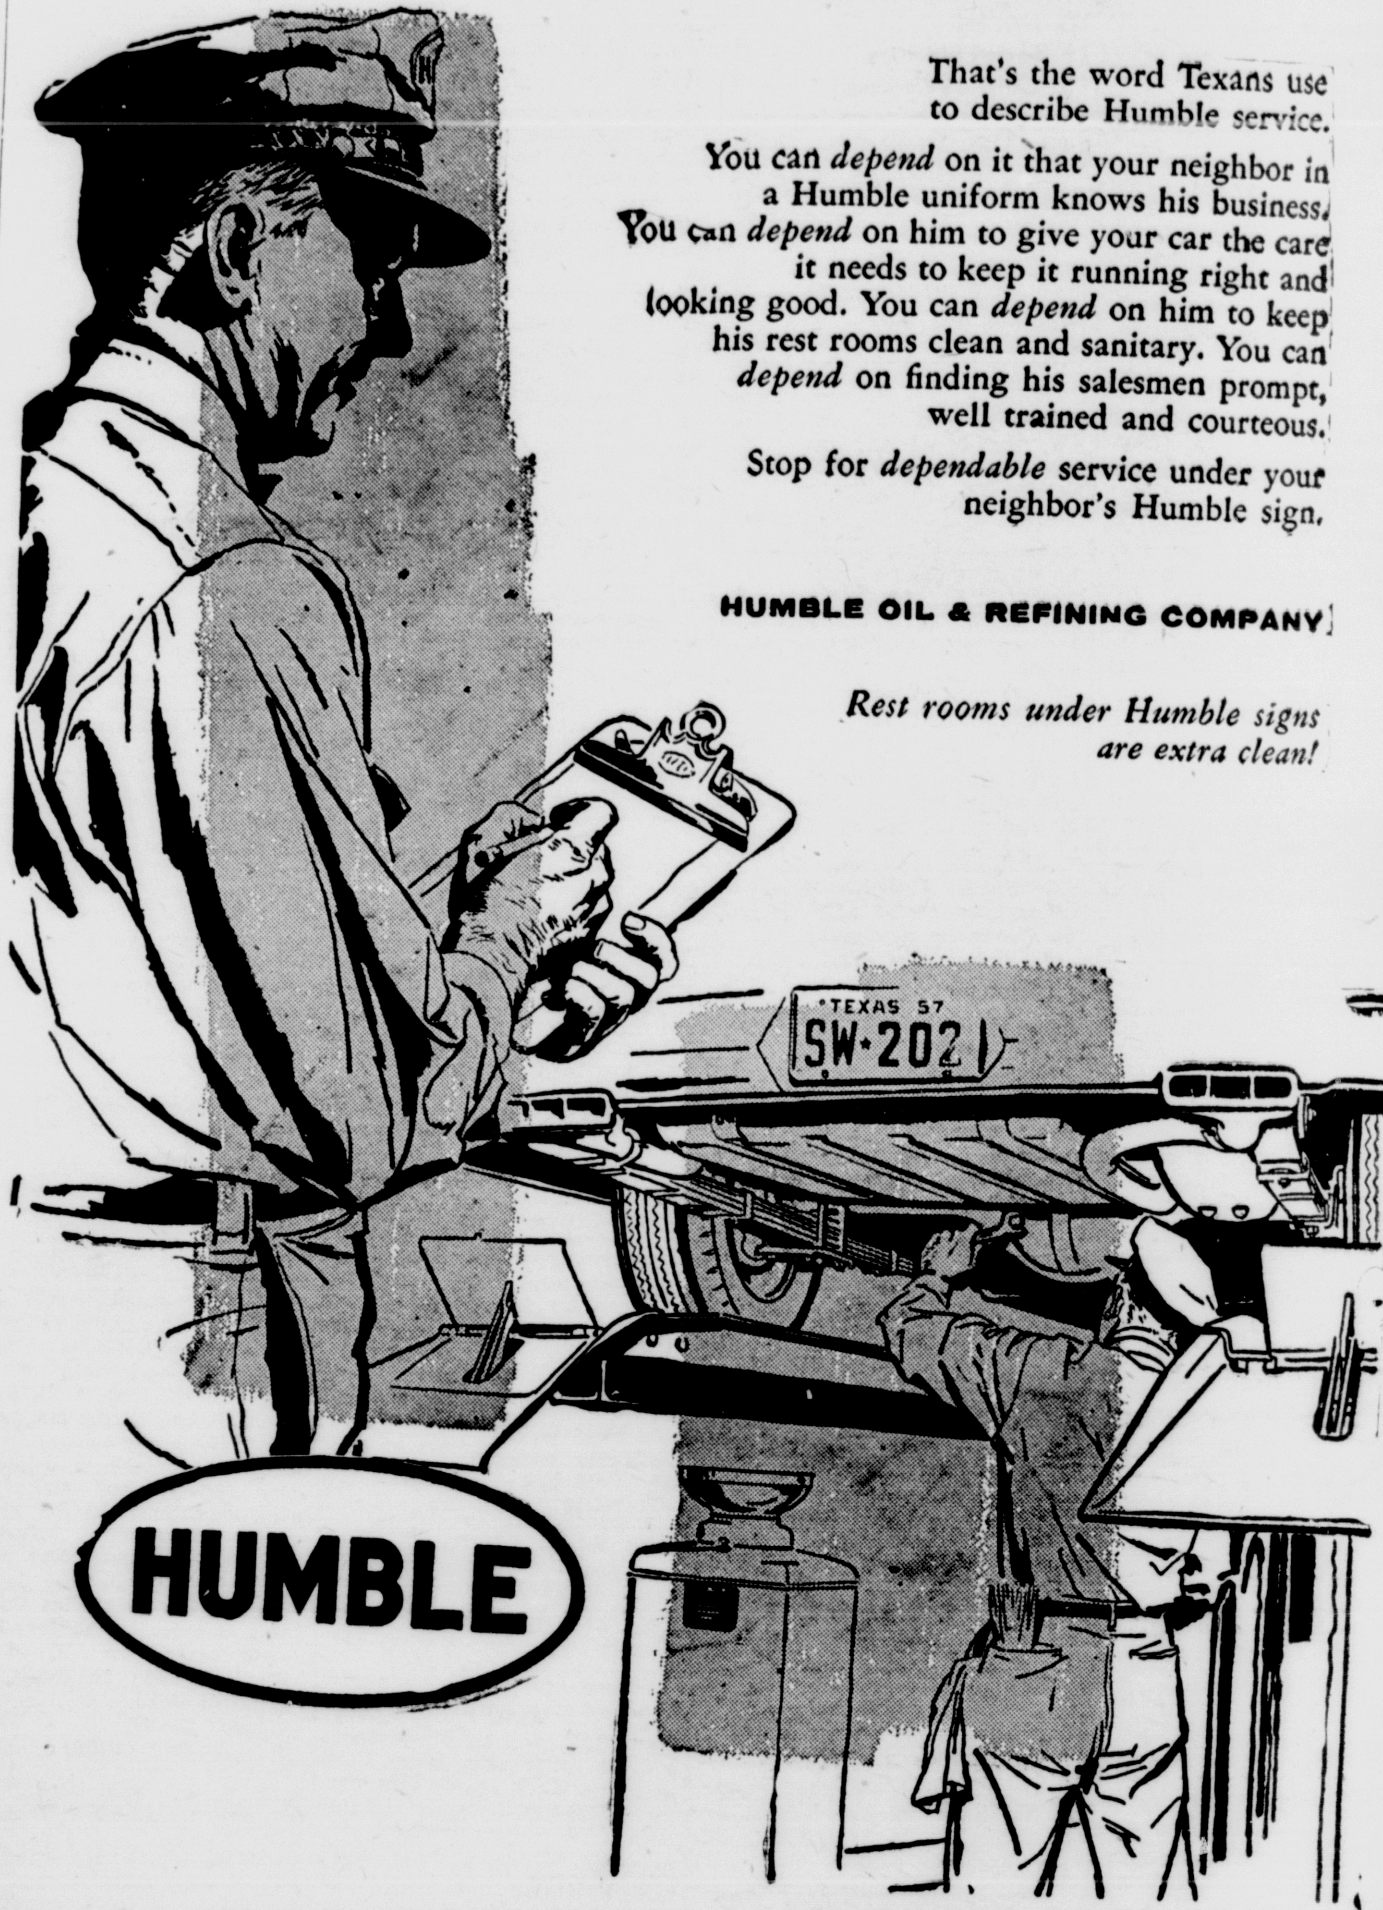

That's the word Texans use
to describe Humble service.

You can depend on it that your neighbor in
a Humble uniform knows his business.
You can depend on him to give your car the care
it needs to keep it running right and
looking good. You can depend on him to keep
his rest rooms clean and sanitary. You can
depend on finding his salesmen prompt,

SECO PHILOSOPHER

Says He's An Expert On Sizing Up Farm Picture

Editor's note: The Seco Philosopher on his Johnson grass farm on the Seco must figure he's going to have something to sell this fall, his letter this week indicates.

Dear editor:
I was out here on my farm things grow by leaps and bounds, you know, one of the advantages of farming is that a crop will grow even while you're sleeping, which is the ideal way to make money, although you have to remember the price can drop while you're sleeping too, and it's nothing to wake up some morning and see your crop and inch taller and the price a dollar lower, but since things were growing pretty good I got to wondering what prices will be like this fall.

Consequently, it was with considerable pleasure when I read in a newspaper I'd been carrying in my pocket for a couple of days where the United States Chamber of Commerce had collected a bunch of experts to ad-

Sen. Yarborough Advocates Parity Principle

Referring to letters from Texas farmers, Senator Ralph Yarborough has called to the attention of the Senate the increasing problems confronting the nation's farmers.

Strongly emphasizing the inadequacy of the soil bank program, Senator Yarborough stated on the floor of the Senate, "I have long advocated the parity principle, and believe it to be the soundest solution to our agricultural problems."

Senator Yarborough praised the Progressive Farmer for its editorial in the July, 1957, issue stating that it clearly shows the grave need for retention of the parity principle.

Senator Yarborough read the last paragraph of the editorial:

"Secretary Benson has not proved that the parity principle has failed. He has simply proved that there has been too much looseness in enforcing or carrying out the parity principle. We ought to mend parity. A vigorous fight by farmers at this time may change the methods by which fair or parity prices are obtained. If we do not save the parity principle, farm prices may drop to bankruptcy figures any year."

"Every passing day brings new evidence in support of the principle of fair parity prices for farm products," he concluded. "The view on business trends for the rest of the year."

And according to the experts, and they had 'em from all fields, wages and prices are going to

continue to climb, retail business is going to increase, construction will climb, and things will keep booming, in fact, 1957 may be our best year.

But what interested me most was the estimate on the farming situation made by an economist for the outfit, after a survey of the whole nation.

According to the article, he "expressed hopes that farm prices will rise along with other prices."

Well, it's a funny thing. I've been hoping farm prices would rise every year all my life, but I've never considered myself an economist or any other kind of expert. However if the best an economist can do after a careful analysis of the agricultural situation is come up with the hope in the summer that prices will be higher in the fall, then I could hang out my shingle along with the best of them. I'm an economist too.

In fact, come to think of it, I suppose most farmers are automatically agricultural economists, as I've never run across one yet who wasn't hoping he'd get a little more for his stuff than he suspects he will or past history tells him he won't.

Experience is a fine thing, but if you haven't got the knack of forgetting some of it, you ain't cut out to be a farmer.

The price of nearly everything is going up, according to the experts, but about all they can offer the farmer is an increase in hopes, and most farmers already have plenty of that, or they wouldn't be going up one row and down another.

Yours faithfully,
J.A.

This Week --In Washington

By Clinton Davidson

Nearly 2,000 years ago the Master Teacher — Christ, asked: "What shall a man give in exchange for his soul?"

About 1500 years before Christ, Esau, the grandson of Abraham, sold his birthright — his inheritance — for one meal, called in the Bible, "a mess of pottage." Through the centuries, millions of mortals have answered the question asked by Christ by exchanging their souls for alluring promises which turned out to be merely "messes of pottage."

Powerful labor leaders who have sold their souls are finding that Judgment Day is here for them. They are accused of the abuse of the power and confidence entrusted to them by Congress and by millions of workers.

Today, millions of labor union members are asking two questions: "Have our leaders sold their souls and the souls of our unions?" and "if so, what price will we have to pay?"

Dave Beck is paying a big price. Apparently he has done great damage, not only to himself but to the Teamsters Union which he has headed for many years. If he has violated the law, if he has caused his Union to lose its integrity, not only he but millions of honest workers will also suffer greatly.

If the investigation reveals that leaders of many unions have sold their souls, the entire labor union movement may have to join in paying the price.

What is the price? Let's be specific and try to answer the Master's question that was asked at the beginning of this column. The price could result in setting the labor movement back to the pre-Franklin D. Roosevelt days. Does that seem impossible? Well let's examine the situation.

Congress vested great powers in labor unions. Most important of all, it gave them the special privilege of acting as national monopolies. Because labor unions are exempted from the monopoly provisions of the Anti Trust Laws they are able, through nationwide strikes to halt such vital national functions as steel production, gasoline production, railroad transportation, international shipping, etc.

Such powers are not entrusted to the owners and managers of those great industries. It is doubtful that even the President of the United States has such power. But labor, you will remember, used this power to practically close all steel production in the United States during the Korean War. If Congress becomes convinced that labor officials and labor unions have lost their souls — their integrity, their morality — then Congress may withdraw labor's special privileges, principally the legal right to act as monopolies. If this were done, nationwide strikes would cease to exist and the sanctity of the picket line would become a theory.

It appears, however, that Congress will not be forced to take such action, George Meany, President of the AFL-CIO, and other labor leaders of unusual integrity already have taken positive actions to clean house of racketeers and other dishonest union officials. They will not stand by idly while other officials sell the souls of labor. They are taking positive action. For example, the AFL-CIO Executive Council, on recommendation of an Ethical Practices Committee, has ousted Beck as an AFL-CIO Vice President, suspended one union and placed two others on probation on charges of corruption. It will be far better for labor, and for the country, if labor cleans its own house. Commendably, it shows every indication of doing just that.

SPORTS SCOOP

By Joe Buser

And on the little league scene, at least, maybe. The proposed lighting of the new little league diamond, which has been in the discussion stage for almost six months, has finally come out of the dark. The hustling new Optimist Club is in the middle of a fund raising campaign for the lighting project and, according to one club spokesman, about \$150 has already been earmarked for the lights.

One of the primary purposes of the Optimist Club is working with boys, but let's not forget that those boys they are working for are our boys, too. Too many people seem content to let some else provide good recreation facilities for their boys.

With the donations already promised, the lights could be erected and operated for \$900, according to league president, Wayne Sigler. Let's get behind those boys. Take off a few minutes next week and drop by the diamond across from Universal Rundle. Game time is 5 p.m. and I can promise you, those boys play to win, with nothing short of major league spirit.

Highway 90 play is due to wind up next week with three games scheduled: Castro at Rio, Uvalde at LaCoste, and D'Hanis at Hondo. The first two games are Sunday; the game in Hondo Saturday. Three make-up games are also scheduled: Castro at Hondo, a double header July 20, D'Hanis at LaCoste July 21, and Uvalde at Rio, also on the 21.

The powerful Pirates are still leading the league with a 10 and 3 record; following close behind are the Indians, with a 7 and 5 record for the season. The Indians are still in the running, since they have three games yet to play and should they win them all, the league would find itself with a pair of teams on top.

Third place team is LaCoste, with Hondo bringing in fourth. Fifth place teams are Rio Medina and Uvalde, each with five wins and eight losses.

And one small favor. Sit down right now and write me about those sports "scoops" from your area. This is your column — the news is about you and your team.

'Coffee Break' Helps Foreign Countries

United Nations — The popular "coffee break" in American office life proved a bonanza for South American economy during the past year, when more people in the United States drank coffee than ever before. They didn't seem to care that the price was high. This is the gist of a report issued by a United Nations agency, FAO (the Food and Agriculture Organization).

In addition to South America, Cuba, Kenya, India and French West Africa have also benefited by the increasing popularity of coffee. FAO which helps the nations work together to produce more food, and keeps tabs on how much is grown and where

it is sold, reports that forty-four million bags, or 2.6 million metric tons of the flavorful bean, were grown during 1955-56.

Big crops usually mean lower prices, but that wasn't the case with coffee. People all over this country and in Europe as well, kept wanting another cup, so prices stayed where they were. Here in this land of the office coffee break, drug store lunches and commuters' snacks, coffee imports rose 25 per cent during the first part of 1956.

A sad note for the future: FAO reports that the current crop in Brazil "appears to be exceptionally small and of somewhat inferior quality".

This Week In Washington

By Clinton Davidson

For the first time in more than 25 years a new and potentially powerful farm federation is springing up to challenge the old-line organizations whose difference led earlier this year to virtual collapse of the famed Farm Bloc.

A group of 11 big farm commodity groups met almost unnoticed in Washington recently to form an alliance and adopt policies independent of the Farm Bureau, National Grange and Farmers Union.

Leaders describe the meeting as "exploratory," but they agreed to meet again on August 6 and 7, and to invite other commodity organizations to join with them in forming a National Association of Commodity Organizations.

The objective will be to develop new farm legislation tailored to meet the needs of each commodity, rather than on a "big tent" basis intended to blanket all commodities under one general program, as in the past.

Represented at the Washington meeting were the American Soybean Assn., National Assn. of Wheat Growers, National Milk Producers Federation, U.S. Poultry & Egg Assn., National Turkey Federation, American Rice Growers Co-Operative Assn., United Fresh Fruit and Vegetable Assn., Vegetable Growers Assn. of America, National Potato Council, and the National Federation of Grain Cooperatives.

These groups have a combined membership of over three million farmers, a figure considerably greater than the total of the Farm Bureau, Grange and Farmers Union. Most of them also belong to one of the general farm organizations, but would be expected to support the commodity proposals.

The new combination is interpreted here as a rebellion aimed particularly at the Farm Bureau and Farmers Union. Both have sponsored price support and acreage allotment legislation which the commodity groups feel favors the basic crops — corn, cotton, wheat, rice, tobacco and peanuts.

The Grange, on the other hand, has long advocated the commodity-by-commodity approach opposed by the Bureau and Union. Herschel Newsom, head of the Grange, expressed delight that the commodity and organized full support of its objectives.

The commodity group still faces at least one major hurdle. It will be difficult to develop a series of 11 or more specific commodity programs on which all of the groups can agree. They will, however, try to do that at the August

Castro Girls Lose Two Games

The Hondo girls' team finally slowed the Castro girls' softball team in a 12-10 extra inning game that was punctuated with verbal fire-works. One rhubarb, in the 7th inning, threatened to disrupt the game completely, as Hondo disagreed vehemently with the plate umpire's decision, but tempers calmed and Hondo scored 2 runs in the eighth to win. J. Carle started for Hondo but gave way to N. Nixon who was the winning pitcher. C. Granieri was the losing pitcher.

St. Cecilia's Girls Gain Revenge

After losing 3 straight games to Castroville, the St. Cecilia's girls bounced back to trounce their opponents 15-8. The San Antonio girls jumped to a quick lead in the 1st inning, and after Castroville tied up the game in the 4th, they exploded for 6 runs in the 6th and 1 in the 7th, and the Castro girls never could catch up. G. Santos pitched for St. Cecilia's and D. Bippert relieved C. Granieri in the 1st for Castroville and was the losing pitcher. The 2 losses gives the Castro girls a 6-2 record.

KILGORE'S CAPITOL COMMENTS

THE SENATE this week passed the Defense Department Appropriations Bill, but not before added which brought the total up to almost \$1 billion more than was approved by the House recently. The bill as passed unanimously by the Senate totals \$34,534,229,000 which amounts to \$971,504,000 more than was in the House bill. The bill will now go to a House-Senate Conference Committee where efforts will be made to iron out the differences between the House and the Senate.

THE COST OF LIVING has gone up again. Take home pay is stretched a little tighter. In the last year the cost of living index is up four per cent. Not only does your dollar and mine buy less, but the tax dollar buys less. Your local tax dollar buys less in school buildings, in police and fire services and street repairs. The defense tax dollar buys fewer airplanes, rockets, and missiles. Budget savings, hard fought for by many of us in the Congress, are eaten away by inflation.

THE HARD MONEY POLICY is supposed to curb inflation — but it doesn't. Instead, as interest rates go up along with costs, the cost of financing the public debt goes up too. The major inquiry by Senator Harry Flood Byrd's Senate Finance Committee will examine our entire national fiscal and economic policy. I hope the results are positive. Stopping inflation is not easy.

MORE AND MORE PEOPLE are inquiring about when Congress will adjourn and we will be home. I wish I could guess, but with a filibuster expected in the Senate, there is no way to know.

THE SOCIAL SECURITY PROGRAM has grown to the point where 73 million people in the United States are now covered by it. In the event of death of the family breadwinner, the mothers and children in nine out of ten American families are eligible to receive survivors' benefits. Last year more than nine million people received Social Security payments totaling about \$5,796,000,000. There were 327,041 of these people in Texas and they received a total of more than \$176 million. In the 13 county 15th Congressional District some 12,205 people divided a total of \$5,727,144. Hidalgo County, the most populous county in the district, had 4,085 people receiving two million dollars. Cameron County was not far behind. Zapata County had the fewest recipients — 56 people who received a total of \$22,680.

VISITORS in the office during the past week included a group of youngsters in Washington for the National Key Club Convention. They were Jim Clar, Stephen De Walt, John McAllen Scanlan, Kermit Cormack, Jr., and Larry Holtzman, all of Brownsville. They were accompanied by Kiwanian Ray A. Block of Raymondville. Also visiting in the office were Miss Tuts Washburn of Donna and Robert Karle of Mercedes.

Cottonseed Plays Important Life Role

Many old-timers in Texas can recall the days when cottonseed was discarded away as waste.

But cottonseed today plays a highly significant role in our every day life.

The ingenious skills of American scientists and research specialists have taken this once-discarded agricultural commodity and put it into consumer channels throughout the world.

Cotton producers have benefited greatly from development of seed uses. A market for the seed means some \$100,000,000 annually to Texas farmers, or one-sixth of the lint's value. About 900 pounds of seed are in the average bale that goes to the ginner.

Cottonseed crushing began 90 years ago at High Hill in Fayette County. Since then, this vital industry has expanded into every major cotton producing area. Lubbock, Texas, today has the world's greatest concentration of cottonseed crushing.

Among the many consumer goods made possible by the former "waste" product are salad dressings, shortening, mayonnaise, margarine and a synthetic ice cream, known as meliorine.

Besides foodstuffs, cottonseed is made into feeds for animals and a variety of plastic products. Cottonseed meal is a popular fertilizer of high nitrogen content.

The story of the cottonseed industry fits well into the picture of American progress — a perpetual progress based on the technological skills of a free and independent Democracy.

Research's role in past progress offers optimism for the future.

New crop uses, new markets, new products from the farm, will be marveled at by the old-timers of tomorrow.

The waste of today might well be the necessity of tomorrow.

A true story based on an actual case

When the neighbor's boy children are in the trash fire, third-degree burns, his claimed we were negligent in the fire unguarded. It been rough on us financially since we were liable for "Damage Suit" Insurance our rescue — paying out \$5,000.

Accidents happen in the ways. If someone is hurt your negligence you may pay — unless you have "Damage Suit" Insurance yourself! (Since it costs a day, why take chances?)
